EXPERIENCE

Schwan's - Warehouse Employee/Driver

April 2020 - March 2021

My job primarily consisted of loading delivery trucks with food and occasionally transporting them to Savannah. Other duties included unloading deliveries from a semi-truck, cleaning, and fueling the trucks.

Tether Studios, — Freelance Video Editor

2017 - 2021

I've been doing on and off Freelance video work with an App Store gaming company for a few years now. My job consists of gathering footage and editing it together to create appealing App Store trailers. I primarily edited these projects in Adobe After Effects and Photoshop.

Little Palm Cocktail Bar, — Bartender/Host/Barista

September 2021- Present

Little Palm is a Cocktail Bar that is operated under Death & Co. I started out as a host and barista, then worked my way up to barback and eventually bartender. My duties include creating craft cocktails in a timely manner, cleaning the bar, engaging with guests, and counting the cash drawer.

CODE AND TRUST, — Web dev Intern

May 2023 - August 2023

As an intern, I worked firsthand with senior developers and other interns to build a full-stack application from the ground up. We spent a few weeks planning the project, properly setting up our repositories and deciding which components we were going to build. I learned industry practices with React, mySQL, Prisma, MUI, and other libraries. After this experience I believe I have gained the skills and confidence to quickly learn new tech-stacks, and I also learned how to work with a team to create a beautiful web application.

EDUCATION/OTHER

West Ashley High School

2012 - 2016

Graduated

College of Charleston

2016-2018

Udemy (Video coding courses)

2021 - 2023

I have worked through around 100 hours of programming courses on Udemy. These courses covered Javascript, HTML, CSS, and React in great depth.
